GUN OWNERS CAUCUS

2027 SESSION OPENS JANUARY 12

THE GUN BAN IS COMING BACK.

In 2026 a ban on most semi-automatic rifles passed the Minnesota Senate **34-33, by one vote**, and died on a 67-67 tie in the House. **In 2027 there is no tie.** The DFL controls the House, the Senate and the governor's office.

> **"Is going to get passed."**
>
> Governor-elect Amy Klobuchar, on the 2026 omnibus gun bill, the day after the election

> **A semi-automatic weapons ban and a magazine ban.**
>
> What incoming House Speaker Zack Stephenson told WCCO he will bring to the 2027 session

WHAT THE 2026 BILL (SF 4067) WOULD HAVE DONE

- **Banned dealer sales of most semi-automatic rifles** with a detachable magazine and one listed feature, such as a pistol grip or folding stock, plus some pistols and shotguns.
- **Deleted the "sporting purposes" exemption** that has protected modern hunting rifles for 30 years.
- **Banned dealer sales of magazines over 17 rounds.**
- **Forced you to register what you already own.** Every covered rifle and magazine certified with the BCA, with a fee, renewed every three years.
- **Made it a crime to miss it.** Owning one without certification: a gross misdemeanor. A second offense: a felony.
- **Restricted private sales** to the state's transfer process.
- **Reenacted the binary trigger ban** our lawsuit struck down.
- **Ended the school parking-lot exception** for permit holders, capped home builds at three a year, and expanded red flag orders.

Every bill starts over with a new number in 2027. Expect the next one to build on SF 4067, often with the same text.

SIGN THE PETITION

gunowners.mn/no-ban

We sort every name by district and deliver it to your own state senator and representative when session opens. Your name and town only: never your address, phone or email.

WHAT'S COMING IN 2027

GUN OWNERS CAUCUS

THEY TRIED ALL OF THIS IN 2026

- **Total bans:** nearly all semi-automatic rifles (HF 3433, HF 4081), and every magazine over 10 rounds, to be destroyed, surrendered or moved out of state (HF 3402).
- **Repealing preemption** (HF 3351), which would switch on the Minneapolis, Saint Paul and Edina rifle and magazine bans.
- **Banning carry** at the State Capitol complex and ending school carry permission.
- **A tax on guns and ammunition**, insurance mandates for gun owners, and a permanent state "Office of Gun Violence Prevention."

In the House, most of these died on tied, party-line committee votes. With a DFL majority, those ties become wins for them.

WHAT WE EXPECT

- **An omnibus gun bill early in the session** that builds on SF 4067: the rifle and magazine sales ban, certification of what you already own, and the binary trigger reenactment.
- **A renewed push to repeal or carve up preemption.**
- **Carry restrictions** at the Capitol, at schools and in government buildings.
- **Bills we haven't seen yet.** We post each one at gunowners.mn as soon as it's filed.

HOW WE STOP IT

Dozens of gun control bills were introduced in 2025 and 2026, and not one passed. Gun owners sent hundreds of thousands of emails, made tens of thousands of calls, and filled every hearing room. That starts again now.

2

GET ALERTS

We'll tell you exactly who to call, and when, as bills move.

gunowners.mn/alerts

3

CALL

When session opens, call your own senator and representative. Constituent calls move votes.

gunowners.mn/take-action

Want to do more? **gunowners.mn/volunteer**: fill hearing rooms, collect signatures, staff our tables at gun shows. And if a ban passes anyway, the Law Center takes it to court, the way we beat the binary trigger ban and won carry rights at 18.
