Dr. Jensen,

Congratulations on yesterday's primary victory in the GOP primary!

We're writing to inform you that our organization has chosen not to endorse a candidate for Governor in the 2022 General election.

We endorsed your candidacy for State Senate in 2016. You failed to honor the commitments you made when seeking our endorsement by co-sponsoring two gun control bills (SF 3279 – Universal Background Checks; SF 3278 – Lost & Stolen Firearms Reporting).

Under pressure from our organization, you later removed yourself as co-sponsor on SF 3279.

We stand by our statement at the time of your sponsorship of these gun control bills that you would no longer be eligible for endorsement by our organization.

We're grateful that as a State Senator you never voted for a gun control bill – and that during your gubernatorial campaign you have voiced nothing but support for the Second Amendment.

Voters will have to decide whether to trust you with their Second Amendment rights.

Yours in Liberty,

Rob Doar
Senior VP, Government Affairs
